

World of Silence –
Made in Germany

Noise protection technology since 1979

IFU GmbH is one of the leading suppliers of technical noise protection solutions. Since 1979, we have been bringing silence wherever there is noise.

IFU is a reliable and flexible partner for customers worldwide when it comes to the planning, development and manufacturing of complex noise protection components. Thanks to our longstanding experience in the field and innovative ideas, we are a one-stop supplier of customised solutions.

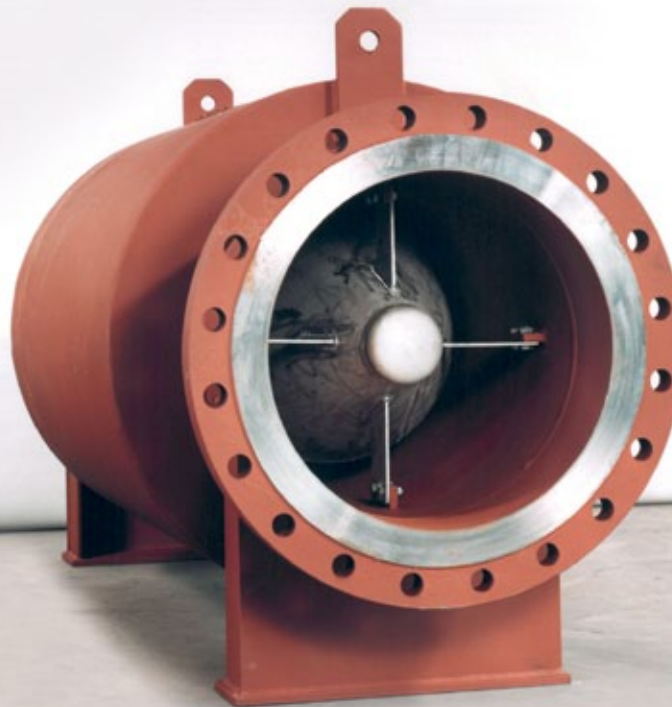

Everything under one roof

We offer environmentally suitable and economically intelligent products, which are developed and manufactured by an experienced team of engineers, design engineers and manufacturing professionals.

Right from the complete system to the replacement part

IFU GmbH covers the entire range of complex noise protection solutions. Right from the planning and development up to the manufacturing of noise hoods, silencers, ventilation and exhaust systems.

A full offer of professional service, support and training completes our profile. We are in the position to offer our customers target-oriented products and solutions for the most varied branches of industry.

Quality

IFU GmbH has set itself to improve the environmental quality sustainably through an extensive range of products in the complex field of sound protection. As well as through technical solutions, which do justice to legal requirements and the requirements of national and international customers.

We specifically implement strict quality assurance measures in the conception phase itself as well as in the entire product development process.

We therefore continuously optimize our construction and calculation methods according to the state of the art science and technology. Furthermore we commission only qualified suppliers with the manufacturing of our products.

We have consciously set high product and service quality, optimal economic efficiency and maximum safety for people and environment as our corporate principles.

We are, already since 1995, DIN EN ISO 9001:2015 certified.

Products

Technology made by IFU is used worldwide to protect the environment and people from excessive noise loads. If you want a detailed list of references, we would be glad to send it to you. Please contact us.

Filter suction system

Exhaust systems

Silencer

Noise hood

IFU GmbH offers its customers the entire range of high-quality acoustic solutions. Besides suction systems, silencers, exhaust systems and noise hoods, the following components too belong to our portfolio:

- Ventilation systems
- Heat, cold and sound insulations
- Replacement and wearing parts
- Special components
- Cooler bundle extracting devices
- Assemblies and construction supervision
- Reconstruction measures and modifications of existing systems
- Vibration dampers
- Compensators

Management

We welcome any queries directly to our management. The members of the business and project management have longstanding experience in the sector and are characterized by excellent technical and market understanding.

Management:

Managing Director (CFO)
Claudia Ciesla-Raape
claudia.ciesla-raape@ifu-schallschutz.de

Managing Director (COO)
Bernd Herzing
bernd.herzing@ifu-schallschutz.de

Project management:

Project Manager (Sales)
Kai Müller
kai.mueller@ifu-schallschutz.de

Contact

Do you have questions about our products or you want to know more about us, our scope of services or our service, do not hesitate to contact us:
